

Line markings

Neat line markings form the finishing touches to every sports playing surface. GCC Sport Surfaces' IAAF-accredited surveyors employ the most up-to-date lining machines, so that you are always assured of accurate and expert application (or renewal) of line markings in accordance with your line marking plan. The renewal of line markings after cleaning or maintenance can also be performed by GCC Sport Surfaces.

GCC Sport Surfaces uses first-class line marking paint or coating, based on two polyurethane components. This paint is highly wear-resistant and UV resistant, thus increasing its lifespan.

If you wish, we can help you draw up a line marking plan for your sports facility.

Sport-technical properties

Dry enough to be walked on	at 23°C	12 hours
Completely dry	at 23°C	5 days
Minimum temperature for application	10°C
